- E. Both I and II are implicit

Answer: Option B

The statement talks of number of cases of food poisoning due to consumption of liquor and not of the number of cases consuming liquor. So, I is not implicit. Besides, the statement indicates that people in rural areas are getting spurious or low-grade liquor and

no check is being kept on shops selling liquor there. So, II is implicit.

47. **Statement:** Lack of stimulation in the first four or five years of life can have adverse consequences.

Assumptions:

- I. A great part of the development of observed intelligence occurs in the earliest years of life
 - II. 50 percent of the measurable intelligence at age of 17 is already predictable by the age of four.
- A. Only assumption I is implicit
 - B. Only assumption II is implicit
 - C. Either I or II is implicit
 - D. Neither I nor II is implicit
 - E. Both I and II are implicit

Answer: Option A

The lacking in first four or five years can be adverse because it is the main period of development. So, I is implicit. Since nothing is mentioned about the predictability of intelligence, II is not implicit.

48. **Statement:** The X-Airlines has decided to increase the passenger fare by 15 percent with immediate effect.

Assumptions:

- I. The demand for seats of X-Airlines may remain unchanged even after the hike of fare.
 - II. Other airline companies may also hike the passenger fares.
- A. Only assumption I is implicit
 - B. Only assumption II is implicit
 - C. Either I or II is implicit
 - D. Neither I nor II is implicit
 - E. Both I and II are implicit

Answer: Option A

Clearly, such decisions are taken only after making sure that it will not affect the company's business adversely. So, I is implicit. However, the impact of this increase on other airlines cannot be ascertained. So, II is not implicit.

49. **Statement:** Shalini made an application to the bank for a loan of Rs. 1,80,000 by mortgaging her house to the bank and promised to repay it within five years.

Assumptions:

- I. The bank has a practice of granting loans for Rs. 1,00,000 and above.
 - II. The bank accepts house as collateral security against such loans.
- A. Only assumption I is implicit
 - B. Only assumption II is implicit
 - C. Either I or II is implicit
 - D. Neither I nor II is implicit
 - E. Both I and II are implicit

Answer: Option E

The fact that Shalini has applied for a loan of Rs. 1,80,000 implies that the bank can grant a loan above Rs. 1,00,000. So, I is implicit. II also follows directly from the statement and so is implicit.
